INTRODUCTION

This report gives final figures for persons in the labour force population during the week prior to enumeration, June 1, 1971 Census. Data show occupation classified by sex, age, marital status and class of worker for Canada. Space and printing considerations necessitate the use of occupational codes rather than titles in this table. For the unit group titles corresponding to these 4-digit codes, see Appendix report, Catalogue No. 94-727.

In the 1971 Census, labour force refers to non-inmates 15 years and over, who, in the week prior to enumeration, worked for pay or profit, helped without pay in a family business or farm, looked for work, were on temporary lay-off, or had jobs from which they were temporarily absent because of illness, vacation, strike, etc. Persons doing housework in their own home or volunteer work only, are excluded from the labour force. Also excluded are female farm workers who indicated that they helped without pay in a family farm or business for less than 20 hours. It should be noted that there are indications that the labour force counts for Quebec may be somewhat underestimated due to response problems. Further information regarding the labour force counts is available in the Population and Housing Research Memorandum (PH-EC-4) "Background Information on the 1971 Census Labour Force Data". This paper can be obtained on request from the Census User Inquiry Service.

The information in this report was collected on a 33 1/3% sample basis. Information on the sample and the weighting system can be found in the introductory report to this volume (see Catalogue No. 94-715).

The 1971 Census figures in this report have been subjected to a confidentiality procedure to prevent the possibility of associating small figures with any identifiable individual. The particular technique used is known as "random rounding". Under this method, all last or "unit" digits in a table (including all totals) are randomly rounded (either up or down) to "0" or "5". This technique provides the strongest possible protection against direct, residual, or negative disclosures without adding any significant error to the census data. However, since totals are independently rounded they do not necessarily equal the sum of individual rounded figures in distributions. Also, minor differences can be expected for corresponding totals and cell values in various census reports.

DEFINITIONS

Age: Classifications are based on the number of completed years of age at last birthday prior to June 1, 1971.

Marital status (i.e., single, married, widowed and divorced): Totals shown under the heading "Married" include all married persons whether living together or living apart for any reason unless a divorce has been obtained.

Class of worker: Refers to the classification of employment according to whether persons mainly worked for others for wages, or helped without pay in a family farm or business, or mainly worked for themselves with or without paid help in their job in the week prior to enumeration, or if not employed at that time, in their job of longest duration since January 1, 1970. Those who were self-employed were asked in addition, if their farm or business was incorporated.

Ce bulletin présente les chiffres définitifs concernant les personnes qui faisaient partie de la population active pendant la semaine précédant le dénombrement du 1^{er} juin 1971. Les données indiquent les professions réparties selon le sexe, l'âge, l'état matrimonial et le statut, pour le Canada. Des considérations d'espace et d'impression ont nécessité, dans ce tableau, l'utilisation de codes de professions plutôt que des titres. Pour les titres des groupes de base correspondant aux codes de professions à quatre chiffres, voir Appendice, nº 94-727 au catalogue.

Au recensement de 1971, la population active comprend les non-pensionnaires d'institution de 15 ans et plus qui, au cours de la semaine précédant le dénombrement, ont travaillé contre rémunération ou en vue d'un bénéfice ou sans rémunération dans une entreprise ou une ferme familiale, ont cherché du travail, étaient en congédiement temporaire ou avaient un emploi dont ils étaient temporairement absents à cause d'une maladie, de vacances, d'une grève, etc. Les personnes faisant seulement des travaux ménagers chez elles ou du travail bénévole sont exclues de la population active. Sont également exclues les travailleuses agricoles qui ont indiqué avoir travaillé moins de 20 heures sans rémunération dans une ferme ou une entreprise familiale. Il est à noter que, suivant certaines indications, la population active du Québec est peut-être quelque peu sous-estimée, en raison de certaines difficultés d'interprétation. On trouvera de plus amples renseignements concernant les chiffres de la population active dans une Note de recherche sur la population et le logement (PH-EC-4) intitulée "Étude des données du recensement de 1971 sur la population active". Cette note de recherche peut être obtenue sur demande au Serviceutilisateurs du recensement.

Les renseignéments de la présente publication ont été recueillis sur un échantillon de 33 1/3 %. On trouvera des renseignements sur l'échantillon et le système de pondération dans l'introduction de ce volume (voir la publication nº 94-715 au catalogue).

Par souci de confidentialité, les chiffres du recensement de 1971 publiés ici ont été soumis à une formule qui interdit la possibilité d'associer des chiffres de faible importance à une personne reconnaissable. Cette technique particulière s'appelle l'"arrondissement aléatoire". Grâce à cette méthode, tous les derniers chiffres, c'est-à-dire les chiffres des unités (y compris tous les totaux) des tableaux sont arrondis de façon aléatoire (vers le haut ou vers le bas) à "0" ou à "5". Cette technique assure la protection maximale contre la divulgation directe, négative ou par recoupements, sans ajouter d'erreur significative aux données. Toutefois, puisque les totaux sont arrondis séparément, ils arrondis dans les distributions. De plus, il faut s'attendre que les totaux et les autres chiffres correspondants dans divers bulletins du recensement présentent quelques légères différences.

DÉFINITIONS

Âge: Nombre d'années révolues au dernier anniversaire avant le 1^{er} juin 1971.

État matrimonial (c. à-d. célibataire, marié, veuf et divorcé): Le total "Mariés" comprend toutes les personnes dont le conjoint est vivant, qu'elles vivent ensemble ou qu'elles soient séparées pour quelque raison que ce soit, à moins d'avoir obtenu un divorce.

Statut: Classement des personnes occupées suivant qu'elles ont surtout travaillé contre rémunération, qu'elles ont travaillé sans rémunération dans une entreprise ou une ferme familiale ou qu'elles ont travaillé surtout à leur compte, avec ou sans aide rémunérée, dans l'emploi qu'elles occupaient au cours de la semaine précédant le dénombrement ou, si elles n'avaient pas d'emploi à ce moment-là, dans leur emploi de plus longue durée depuis le 1er janvier 1970. Les travailleurs indépendants devaient également indiquer si leur ferme ou leur entreprise était constituée en corporation.

Wage-earners: Persons 15 years and over, who indicated that in the job reported, they were mainly working for wages, salaries, tips or commissions. Included are persons working for piece-rates, those working for payment "in kind" in non-family enterprises, salesmen on commission working for only one company and not maintaining an office or staff, and persons working casually by the day as odd-job labourers and baby-sitters. Self-employed in incorporated companies are included as wage-earners in 1971, but were probably not included in 1961.

Self-employed: Persons 15 years and over, for whom the job reported consisted mainly of self-employment (including partnership) in their own unincorporated business, professional practice or farm, with or without paid help. Included are persons working mainly on contract or as free lancers, private duty nurses, etc.

Unpaid family workers: Persons 15 years and over, for whom the job reported consisted mainly of work without regular money wages for a relative who was a member of the same household, at tasks which contributed to the operation of the business or farm owned or operated by the relative.

Evaluation of female unpaid family worker counts indicates these may be inflated by about 25% through reporting and processing errors. These errors resulted in improper inclusion of some females in the labour force and confusion with the wage-earner category.

Occupation: Refers to the specific kind of work the person did on the job, as determined by the reporting of the kind of work, the description of the most important duties and the job title. Data relate to the respondent's job in the week prior to enumeration if he or she had a job during that week or to the job of longest duration since January 1, 1970 if not employed in that week) Persons with two or more jobs during the reference week were asked to give the information for the one at which they worked the most hours.

Occupational classification: A classification system based on the Canadian Classification and Dictionary of Occupations was used in the 1971 Census. Unit groups to which occupations are classified in this system were formed to have a "desirable degree of homogeneity with respect to kind of work performed". Although work performed may be influenced by a particular industrial process, the classification of individuals by their kind of work is theoretically independent of the nature of business of the establishment in which it is carried on. In most cases, self-employed individuals, reporting their kind of work, are classified to the relevant unit group in the same fashion as employees.

For further information on the classification, including definitions of the individual unit groups, see "Occupational Classification Manual, Census of Canada, 1971", Volume I, Catalogue No. 12-536. For the occupational titles corresponding to the 4-digit unit group codes shown in this table, see the Appendix report, Catalogue No. 94-727 or the Occupational Classification Manual itself.

Note: Comparability with previous censuses: The 1971 occupational classification differs considerably from previous ones. It is the result of a complete revision of earlier classifications. Consequently, comparisons with earlier censuses cannot be made at this time. A special trend report will be published at a later date.

The estimates of the mean square error for the characteristics covered in this report were not available at the time of publication. They will be available in the introductory report to this volume (Catalogue No. 94-715). Those users requiring this information prior to the release of the introductory report should contact the Census User Inquiry Service.

Salariés: Personnes de 15 ans et plus qui ont indiqué que, dans l'emploi qu'elles occupaient, elles travaillaient surtout contre rémunération, à la commission ou pour des pourboires. Sont compris les personnes travaillant à la pièce, les personnes travaillant contre rémunération en nature dans une entreprise non familiale, les vendeurs travaillant à la commission pour une seule entreprise et n'ayant ni bureau ni personnel, ainsi que les personnes travaillant occasionnellement à la journée, comme les hommes à tout faire et les gardiennes d'enfants. Les travailleurs indépendants dans des entreprises constituées en corporation sont compris comme salariés en 1971, mais ils ne l'étaient probablement pas en 1961.

Travailleurs indépendants: Personnes de 15 ans et plus dont l'emploi déclaré consistait surtout en travail autonome (y compris en association) dans leur entreprise, profession ou ferme non constituée en corporation, avec ou sans aide rémunérée. Sont comprises les personnes travaillant surtout à contrat ou à la pige, les infirmières privées, etc.

Travailleurs familiaux non rémunérés: Personnes de 15 ans et plus dont l'emploi déclaré consistait surtout en travail sans rémunération régulière en espèces pour un parent membre du même ménage à des tâches contribuant à l'exploitation de l'entreprise ou de la ferme dont le parent était le propriétaire ou l'exploitant.

L'évaluation des chiffres des travailleuses familiales non rémunérées révèle une surestimation possible d'environ 25 % attribuable à des erreurs d'observation et d'exploitation. Ces erreurs ont entrainé l'inclusion erronée de certaines femmes dans la population active ainsi qu'une certaine confusion avec la catégorie des salariées.

Profession: Genre de travail que faisait le recensé déterminé par l'indication du genre de travail, la description des fonctions principales et le titre de l'emploi. Les données portent sur l'emploi que le recensé occupait pendant la semaine précédant le dénombrement, s'il avait un emploi cette semaine-là, ou sur l'emploi de plus longue durée depuis le 1cr. janvier 1970, s'il n'avait pas d'emploi cette semaine-là. Les personnes ayant deux emplois ou plus pendant la semaine de référence devaient fournir les renseignements pour celui auquel elles avaient consacré le plus grand nombre d'heures.

Classification des professions: Au recensement de 1971, on a utilisé une classification fondée sur la "Classification canadienne descriptive des professions". Cette dernière est formée de groupes de base réunissant les professions de manière à assurer un "certain degré d'homogénéité par rapport au genre de travail exécuté". Bien que le travail exécuté puisse subir l'influence de certains procédés industriels, le classement d'une personne selon son genre de travail est, en théorie, indépendant de l'activité de l'établissement où elle travaille. Dans la plupart des cas, les travailleurs indépendants sont classés dans le groupe de base approprié, tout comme les salariés.

Pour de plus amples renseignements sur la classification et sur les définitions des groupes de base, voir "La classification des professions, Recensement du Canada, 1971", volume 1 (nº 12-536F au catalogue). Pour les titres des professions correspondant aux codes des groupes de base à quatre chiffres dans ce tableau, voir l'appendice, nº 94-727 au catalogue, ou La classification des professions.

Nota: Comparabilité avec les recensements antérieurs: La classification des professions de 1971 diffère grandement des classifications précédentes. Elle est le produit d'une révision complète des anciennes classifications. Par conséquent, il est impossible de faire des comparaisons avec les recensements antérieurs pour l'instant. Un texte spécial sur les tendances paraîtra ultérieurement.

Les estimations de l'erreur quadratique moyenne des caractéristiques données dans ce bulletin n'étaient pas connues au moment de la publication. Elles seront disponibles dans l'introduction de ce volume (nº 94-715 au catalogue). Les utilisateurs désireux de connaître ce renseignement avant la publication du bulletin d'introduction devront s'adresser au Service-utilisateurs du recensement.

Publications of the Census of Canada, 1971

This report is one of the Volume Series of publications of the 1971 Censuses of Population, Housing and Agriculture. Altogether, there are some 225 reports in this series prepared in such a way that by removal of their covers the contents can be combined to form the materials comprising the 6 volumes and 25 separate volume parts in the entire series. A hard-covered binder, suitably titled, is included in the composite price to purchasers of the complete set of reports for any given volume part.

Catalogue of reports

A catalogue is available which describes the individual reports in the Volume Series of 1971 Census publications as well as reports in other series (i.e., Advance Series, Census Tract Series, and Special Series). The catalogue also includes a price list and an order form. A copy of this catalogue may be obtained from Publications Distribution, Statistics Canada, Ottawa K1A 0T6. For further information on census publications, address your inquiry to Information Division, Statistics Canada.

How to order reports

Orders for reports may be sent to Publications Distribution, Statistics Canada, Ottawa K1A 0T6, or to Publishing Division, Information Canada, Ottawa K1A 0S9. Enclose payment with your order in the form of a cheque or money order made payable to the Receiver General of Canada. If more convenient, census publications may be ordered from Information Canada bookstores in Halifax, Montreal, Ottawa, Toronto, Winnipeg, or Vancouver. For other details concerning deposit accounts, bulk orders, etc., contact Publications Distribution, Statistics Canada.

Other forms of publication

In addition to the tabulated results of the 1971 Census published in reports and bulletins, a large number of tables will be issued to users as copies of computer print-outs. These will also be available in microform. A variety of statistical tables may be purchased on computer "summary" tapes for further computer analysis by users. Details of the content, prices, and availability of census tabulations in these output media may be obtained from the User Inquiry Service, Census Field, Statistics Canada, Ottawa K1A 0T7.

Special tabulations

To the extent that confidentiality constraints permit, Statistics Canada will produce for users at cost, special tabulations not already included in the planned tabulation programme. Requests should be sent to the Census User Inquiry Service specifying clearly the precise classifications or cross-classifications and the geographic areas. The exact categories for each characteristic and a rough table layout should be included.

Maps and geographic files

Large-scale maps may be purchased to show the boundaries of enumeration areas (i.e., the territory covered by each Census Representative in taking the census), as well as small-scale maps of census divisions and other statistical areas. Supporting documentation relating to the census geographic files (i.e., place names, codes, etc.) are available in tabular form identifying the component enumeration areas of administrative and statistical units (e.g., towns, villages, municipalities, tracts). Further details, including costs to users, may be obtained from the User Inquiry Service of the Census Field of Statistics Canada.

Publications du recensement du Canada de 1971

Le présent bulletin fait partie de la série des volumes des recensements de la population, du logement et de l'agriculture de 1971. Cette série compte au total environ 225 bulletins présentés de telle sorte qu'en retirant leur couverture l'utilisateur peut les réunir et constituer ainsi les 6 volumes de la série, qui comprennent 25 parties distinctes. Un auto-relieur à couverture rigide portant le titre approprié est compris dans le prix d'achat de la série complète des bulletins constituant une partie de volume.

Catalogue

On peut se procurer un catalogue qui décrit chaque bulletin de la série des volumes du recensement de 1971, ainsi que les bulletins des autres séries (série préliminaire, série des secteurs de recensement et série spéciale). Le catalogue contient également une liste de prix et une formule de commande. On peut obtenir un exemplaire de ce catalogue en s'adressant à la Distribution des publications, Statistique Canada, Ottawa K1A 0T6. Pour tout renseignement complémentaire sur les publications du recensement, s'adresser à la Division de l'information de Statistique Canada.

Commandes de bulletins

Les commandes de bulletins peuvent être envoyées à la Distribution des publications, Statistique Canada, Ottawa K1A 0T6, ou à la Division de l'édition, Information Canada, Ottawa K1A 0S9. Toute commande doit être accompagnée d'un chèque ou d'un mandat établi à l'ordre du Receveur général du Canada. On peut aussi commander les publications du recensement aux librairies d'Information Canada de Halifax, de Montréal, d'Ottawa, de Toronto, de Winnipeg et de Vancouver. Pour plus de détails sur les comptes de dépôt, les commandes en gros, etc., s'adresser à la Distribution des publications, Statistique Canada.

Autres formes de publication

En plus des diverses publications contenant les résultats du recensement de 1971, de nombreux tableaux seront mis à la disposition des utilisateurs sous forme d'états mécanographiés. Ces tableaux seront également disponibles en microcopie. Les utilisateurs désireux de faire des analyses par des moyens mécanographiques pourront également se procurer un large éventail de tableaux statistiques sur bandes "sommaires". Pour tout renseignement sur le contenu, le prix et la disponibilité des résultats du recensement sur ces supports, s'adresser au Service-utilisateurs, Secteur du recensement, Statistique Canada, Ottawa K1A 0T7.

Totalisations spéciales

Dans la mesure où le respect du secret des données le permettra, Statisfique Canada établira, à l'intention des utilisateurs qui en acquitteront les frais, des totalisations spéciales qui ne font pas encore partie du programme d'exploitation prévu. Il faut envoyer les demandes au Service-utilisateurs des données du recensement en précisant bien les classements ou recoupements et les régions géographiques. Il faut inclure les catégories exactes pour chaque caractéristique et une ébauche de la disposition des tableaux.

Cartes et fichiers géographiques

Les utilisateurs pourront se procurer des cartes à grande échelle indiquant les limites des secteurs de dénombrement (c.-à-d. des territoires recensés par chaque représentant du recensement) ainsi que des cartes à petite échelle des divisions de recensement et des autres secteurs statistiques. Les documents constituant les fichiers géographiques (noms, codes, etc. géographiques) sont disponibles sous forme de tableaux présentant les différents secteurs de dénombrement qui constituent les unités administratives et statistiques (par ex., villes, villages, municipalités et secteurs de recensement). Pour plus de détails et pour une indication des frais, s'adresser au Service-utilisateurs du Secteur du recensement de Statistique Canada.
